RAM IMPEX — Georgian importer and distributor

RAM IMPEX LLC supplies the Georgian market with two core products — **cardboard packaging boxes** and **anthracite briquette**. Both directly serve agriculture: packing produce and heating greenhouses.

Mission

Give farmers and agribusiness quality packaging and economical heating — from one reliable source.

Vision

Georgian produce, properly packed and competitive — on local and export markets.

Values

Quality, on-time delivery and tailored solutions at any volume.

Any size / volume

Two solutions — one goal

A farmer needs two things: to pack produce properly and to grow/store it in warm conditions. RAM IMPEX provides both.

Packaging

- ✓ Boxes for fruit, vegetables and berries
- ✓ Packaging for wine, eggs, mushrooms, greens
- ✓ Any size — to fit your product
- ✓ Branding with your logo

Heating

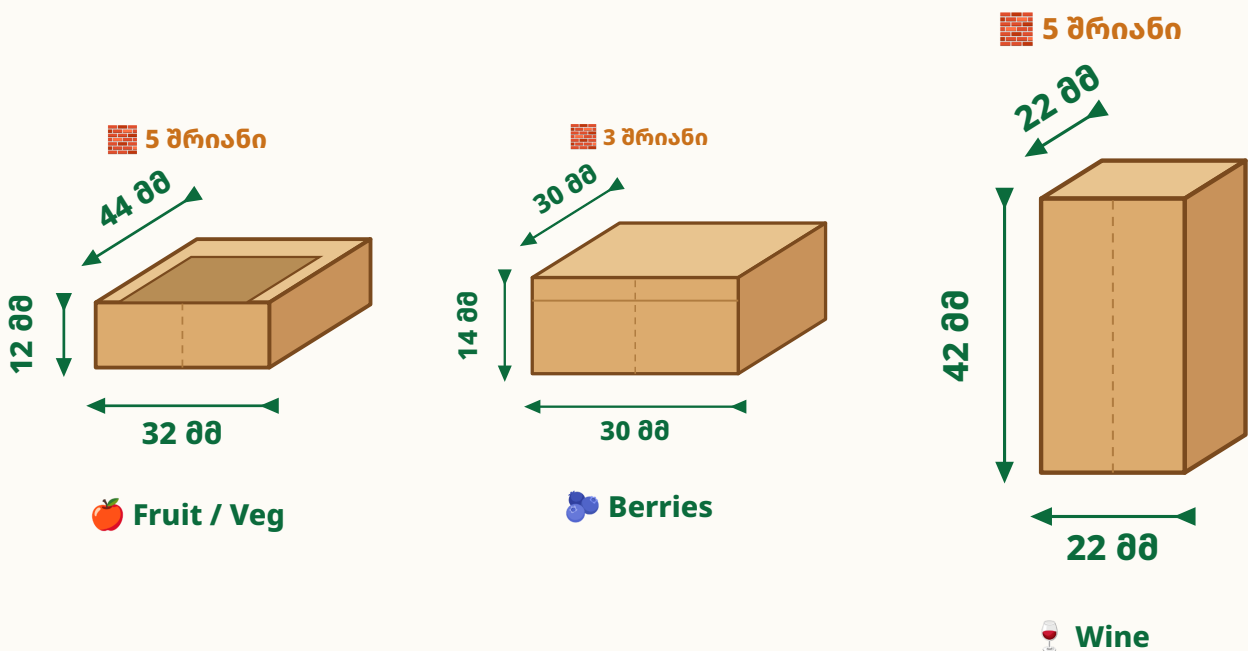

- ✓ Anthracite briquette for greenhouses
- ✓ High-calorie, long burn (8–12 h)
- ✓ Economical — cheaper than firewood
- ✓ Smokeless, little ash

Both products in one delivery — save time and logistics cost.

Packaging for farm produce

We make the box that fits your product exactly — fruit, vegetables, berries, wine or eggs. Each box is cut to your size (length × width × height) and number of layers.

Any size

Exact to your product

3 / 5 layers

Strength by load

Large volume

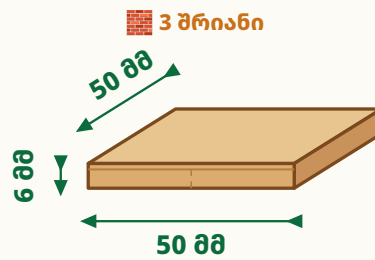

More = cheaper per unit

One example — many shapes

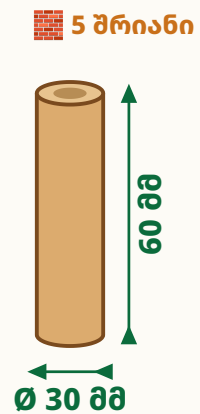

Below are only samples. In reality — any shape and size on request.

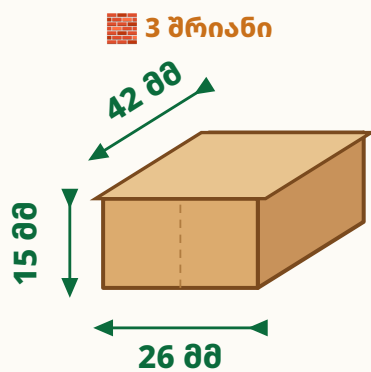

Standard

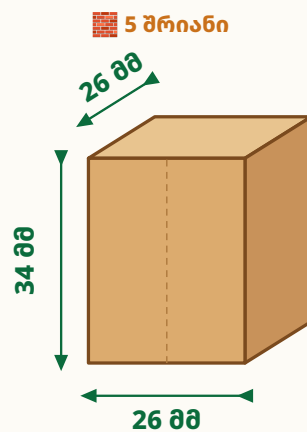

Flat / tray

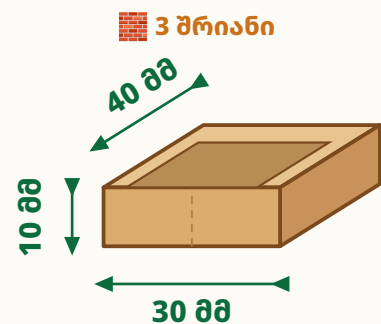

Tube

Long

Tall

Open tray

Edge protectors — for export

Export goods travel far — palletizing, handling, reloading. Cardboard edge protectors shield box and pallet corners from damage and reinforce the load under strapping.

L-profile · multi-layer

Pallet protection

Corners stay intact under strapping

Export transport

Long journeys safe, no damage

Any length

Cut to your pallet size

Durable

Multi-layer, high strength

Greenhouse heating — economical and stable

Anthracite briquette is ideal for heating greenhouses and farm spaces: one load holds a stable temperature for a long time, which is critical for plants.

~7,951

kcal/kg —
high-calorie

8–12 h

burn per load

Smokeless

little ash, clean burn

**10 kg
· 1 t**

bag and big-
bag

 Use only in a closed grated stove/furnace with a chimney and good ventilation — intended for heating.

Briquette vs firewood — in numbers

	 Briquette	 Firewood
Calorie (kcal/kg)	~7,951	~2,100
1 kg briquette ≈	~10 kg firewood	
Burn per load	8–12 h	frequent refills
Season cost (~4 mo)*	≈ 800 ₪	≈ 1,600 ₪
Smoke / ash	minimal	a lot

≈ 800 ₪ saved per season

* Indicative comparison; real cost depends on area and temperature.

Concrete use cases

How RAM IMPEX helps real Georgian farms:

Fruit farm

Apples/pears — boxes for safe transport, no damage.

Berries

Blueberries/strawberries — small, clean boxes for a great presentation.

Winery

Bottle boxes + dividers, and edge protectors on pallets for export.

Greenhouse

Strawberries/cucumbers in winter — stable, economical heating with briquette.

Price by volume

Anthracite briquette

1 bag (10 kg) 20 ₺

1 ton (big-bag) 1,800 ₺

2.00 ₺/kg up to 1000 kg

1.80 ₺/kg 1000–21000 kg

1.30 ₺/kg 21000 kg+

Cardboard boxes

Price depends on size, number of layers and batch.

- ♦ The larger the order — the cheaper per unit.
- ♦ Branding available.

Individual price — on request.
